Purpose: Residential building

Date of completion: 2018-2019

Client: Kimelman-Moraes / Gómez-Platero /  
Estudio Luis Lecueder

Architects: Kimelman-Moraes / Gómez-Platero

Executive Project (Architecture): MARQ

Area: 355,000 ft<sup>2</sup>

Structural System: Reinforced concrete and  
steel structure

Scope of work: Detailed design

### Description

Both towers belong to one of the greatest high quality real estate complexes in Uruguay, developed by acknowledged market players. This project combines nature and comfort in a unique, high-end design.

RDA participated in the detailed design of both towers (18 stories each), residential construction and amenities. The final solution includes flat slabs without beams and reinforced concrete walls.
