OUR VIEW

In a globalized world, transport networks are critical to connectivity and therefore vital to a nation's well-being. Roadways, railways and waterways are essential for transporting people and goods. We give our best in each project, enhancing value-chain integration and promoting economic development.

In **RDA Engineering** we team up with private companies and public institutions to achieve the best solution for each project. We deliver carefully designed, functional and cost-effective projects that turn into durable assets meeting both current and future demand.

URUGUAY CENTRAL RAIL NETWORK

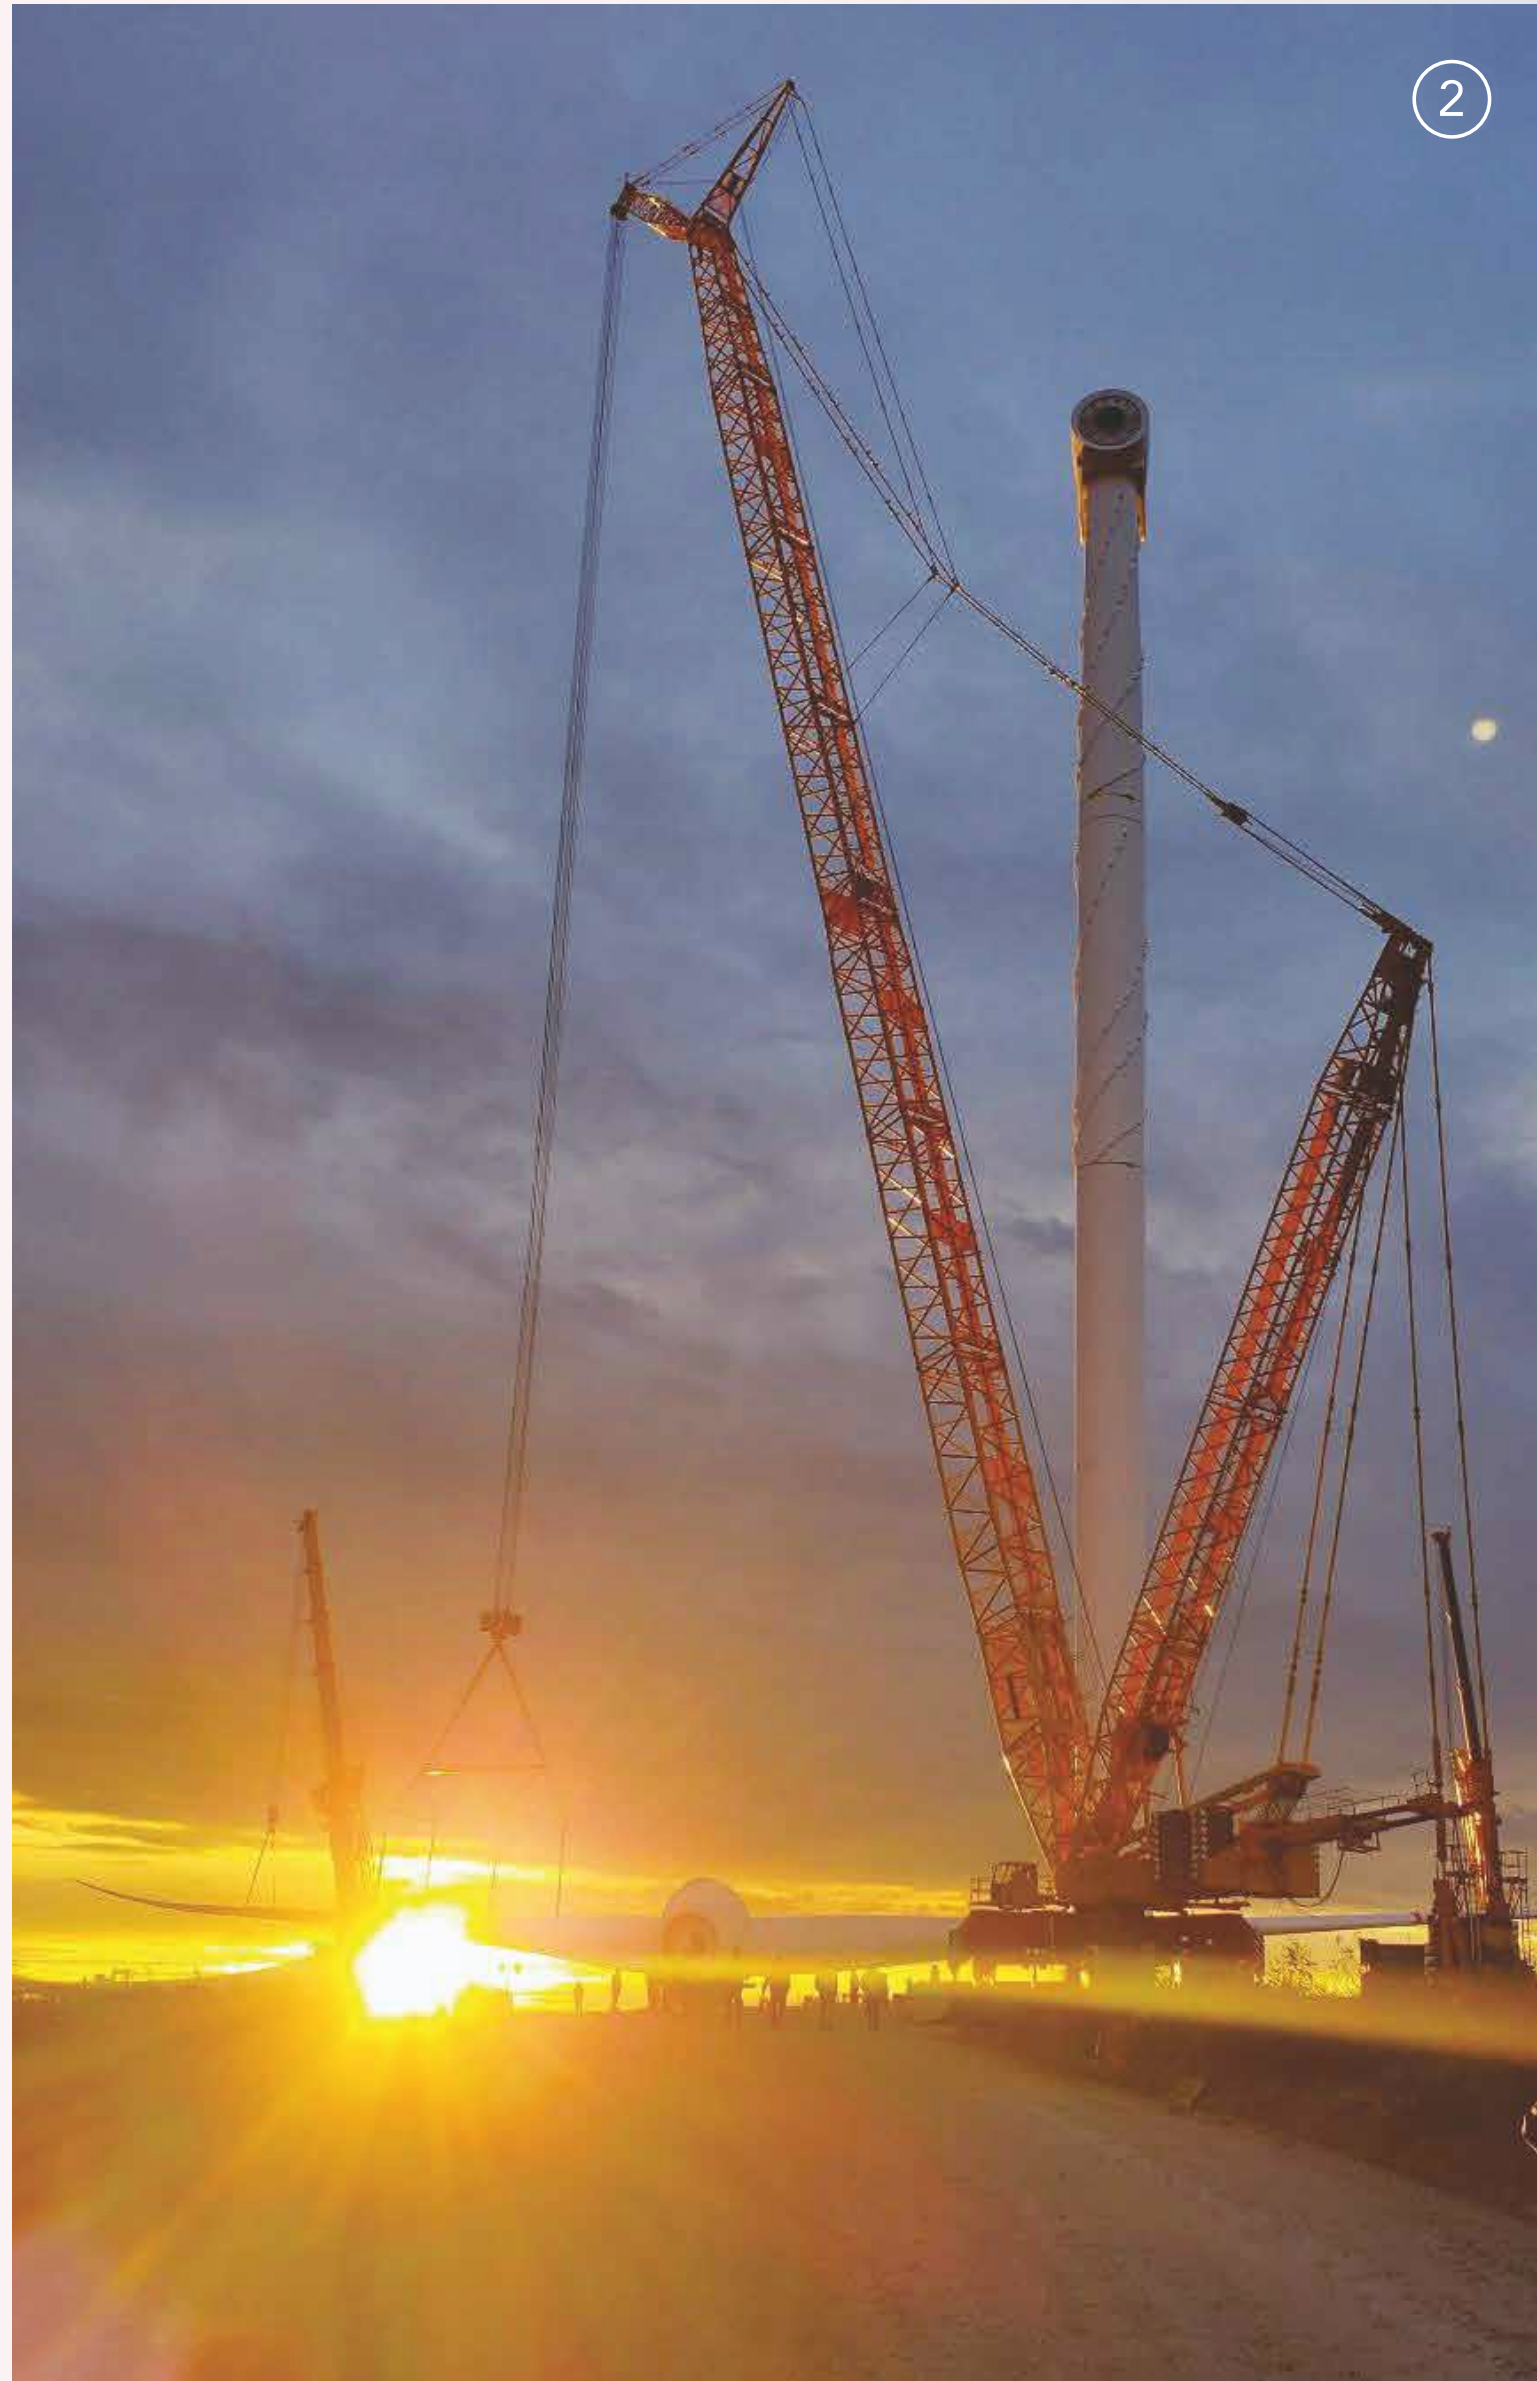

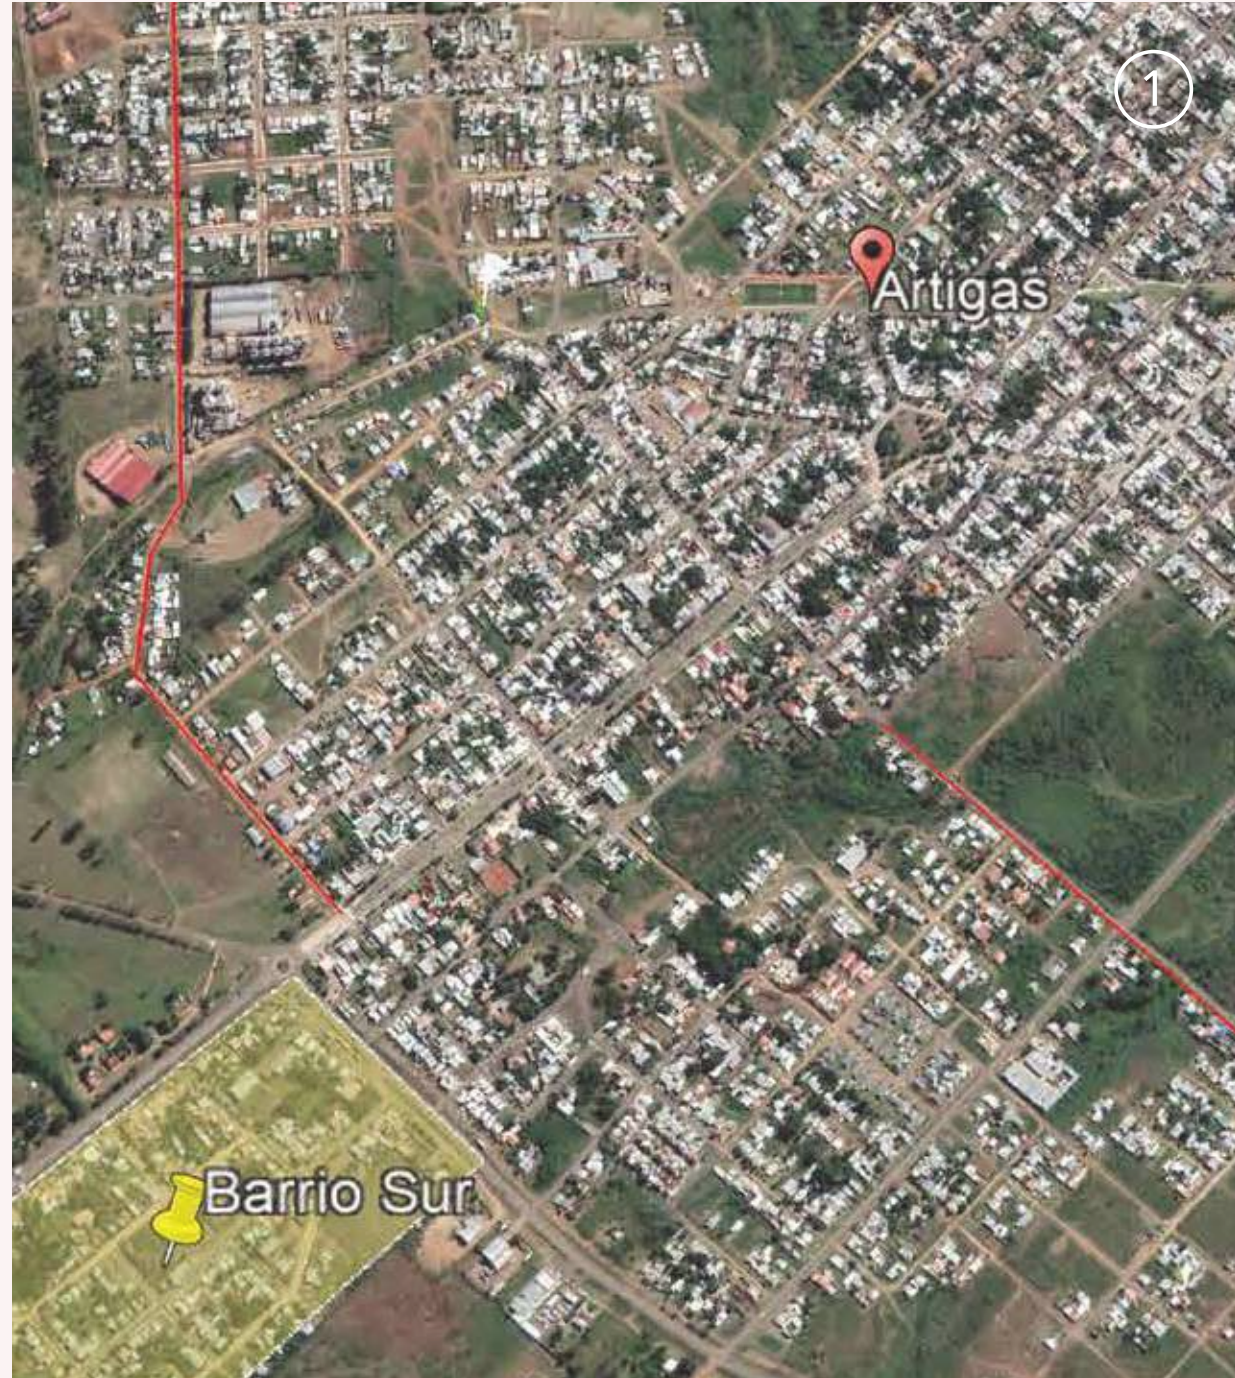

Canelones, Uruguay
2018

AREAS OF EXPERTISE

- Highways and roadways
- Railways
- Esplanades and parking lots
- Water
- Urban planning
