

PROJECT

Passenger Boarding Bridges Josep Tarradellas

LOCATION

Barcelona, Spain

INFORMATION

Area: Civil works
Market: Passenger boarding bridges
Year of completion: 2015
Final client and developer: AENA
Architecture: INECO
Contractor: SACYR
In collaboration with: Fhecor Ingenieros Consultores
Our work: Tender project

DESCRIPTION

Remodelling work of the Terminal 1 South Dam building at Barcelona Airport - El Prat. The new platform configuration provides 6 parking spaces for large aircrafts (Airbus 380).

SOLUTION

The structural project consisted in six boarding and disembarking ramps for passengers, with a total surface of 32.300 sq. ft. The adopted solution was a steel structure and reinforced concrete foundations.
