

PROJECT

Consolidation of Bella Union Street

LOCATION

Artigas, Uruguay

INFORMATION

Area: Road infrastructures
 Market: Planning and urban development
 Year of completion: 2016
 Final client: Intendencia de Artigas (Uruguay)
 Our work: Tender project and detailed design

DESCRIPTION

The project consisted of the consolidation of Bella Union street, a 1.2 miles long street in Artigas city. Approximately 5.000 people were benefited through this change, including 180 local business owners from the surrounding area.

SOLUTION

A research was carried out about technical/economic alternatives in order to provide solutions for roads, sidewalks, curbs, storm drainages and street lighting. To do so, there were inspections and surveys about affected services, and studies for the development of the roadworks, hydraulic and environmental projects were carried out.
